

# LAINOX®

DEVICE FOR COOKING

Lainox is an Italian company that specializes in designing and creating equipment for professional restaurateurs. Its main product line includes smart combination ovens which unite technology and know-how, and are connected to the Internet and the Lainox Cloud: an encyclopedia collecting chefs' recipes from around the world.

# smach®

Based in Turkey, Smach manufactures top-of-the-line ice cream machines (gravity and pump), frozen yoghurt machines (agitators), combi ice cream machines, slush and milkshake machines, and batch freezers.

# FROSTY

Established in 1995 in China with technical oversight from its US office, Frosty is a line of soft serve ice cream machines that assures its users of high output capacity, energy savings of up to 30%, and smooth & creamy product texture.

# delitas

Delitas prides itself as the most reliable industrial frying brand proudly made in Korea. It offers high-efficiency gas and electric fryers, as well as other QSR (Quick Service Restaurants) solutions including gas griddles and food holding cabinets.

Save up to 50% of your frying oil with VITO oil filter. This system filters microparticles in the oil — increasing its lifetime, improving its taste and quality, and saving you time, labor, and costs.

# G-TEK

DISHWASHING MACHINES

G-Tek dishwashing machines are ideal for industrial back-of-the-house (kitchen) operations. These machines are recommended to be used together with Oleo-Fats food safety products for a total kitchen sanitation solution for your business.

# KALORM
